With the Eminent EM1224 Web Camera with Microphone you can send live video to anyone. The camera is easy to install thanks to USB 2.0 UVC and the perfect solution for video chat and video conferencing. The unique click-on enables you to simply click the camera on your LCD screen or laptop!

Live sound and video stream
Your friends, family or colleagues can now see and hear you using your instant messaging software like MSN or Skype ! The EM1224 has a built-in microphone and live image support of 640x480 pixels with a frame rate up to 30 fps. This makes the EM1224 ideal for video conferencing and video instant messaging.

Software with face tracking and other features
The web camera comes with nice features, like intelligent face tracking. You do not have to sit still or change the camera position anymore! The intelligent software will follow your face in the image to show you completely in the live video stream.
The software also includes 'Funny Frames' which enables you to change your image using 9 photo frames or 10 image effect and you can take snapshots up to 20 Mega pixels (interpolated, 4608 x 3456 pixels).

Easy click-on stand
It does not matter what kind of monitor you are using, the EM1224 fits on almost every monitor because of the easy click-on stand. You can also rotate the webcam into the right position to get the best picture of yourself! The webcam is lightweight and suitable for your desktop, notebook or netbook!

Easy to install
Plug in and show yourself! You can install the Eminent EM1224 Web Camera with Microphone on your computer, notebook or netbook in an instance! This is possible because of USB 2.0 UVC (Universal Video Class). You only have to connect one USB cable for both sound and image.
